Subject: Tank Car Corporation

Hi Myles

I believe Commissioner Glenn Schaum and Eric Faust, Philly Transportation were talking about the public meeting on Monday July 8th, and one or both of them believe the Board of Commissioners and the Community might benefit if you were available to attend the meeting to answer questions in your area of expertise. Glenn said you would consider attending if you were officially invited. You know we would love to have you there to help educate the Community, so if you can make it that would be great.

Our meeting is at the Twp. Building at the address below. The meeting begins at 7:30 PM, and we normally address issues of interest of the folks in the audience first.

My guess is the Tank Car Corp discussion will be first or second

The Board has a lengthy agenda that night, so the discussion should not drag on, particularly since the Board knows of the meeting last week

Thank you for your consideration
Don B.

Hey Eric,

Attached are three documents. The first being the letter requesting and outlining the site plan as it pertains to the environmental protection. The next two are maps that indicate the fence, the sands, and the lights.

I am off the clock until 330 pm tomorrow. But will check my email for the updated maps soon after that (these maps include additional features and will end up being scaled for large ("D" sized printing).. I will have several files for you to look at and get started with your plans. Please note, I do not want you to submit the map with the light poles already marked.... (you'll have this map to use as a guide.... But you'll have to add your locations for your submission, Just like you'll have to add other features.. I will give you a "clean" map for you to add your proposed locations.

If you have any questions regarding this, let me know. I'll certainly work through it with you.

Please confirm receipt of this email.

Thanks

Myles
